SUMMARY

Front-End Web Developer with hands-on experience building responsive and user-friendly web applications using React, JavaScript, and modern CSS. Skilled in translating designs into clean, reusable components and deploying production-ready applications. Passionate about continuous learning and delivering high-quality UI experiences.

EXPERIENCE

Front-End Developer (Collaborative) — Farscorp Solutions

Apr 2025 – Present

- Built and maintained React UI components and page layouts for the Saeku Web Platform, focusing on clean, reusable, and responsive design.
- Implemented modern UI patterns for property listings and key screens, improving consistency and usability across devices.
- Integrated frontend features with backend services (PHP/Laravel + REST APIs) to support data-driven interfaces and smooth client–server communication.
- Collaborated with a team using Git-based workflows (branching, pull requests, reviews) and contributed to feature delivery and bug fixes.

PROJECTS

GMP Electrical Solutions — React, Chakra UI, Vite

Live: https://gmp-electrical-solutions.vercel.app | **GitHub**: github.com/Tinashe623/gmp-electrical-solutions

- Built responsive marketing site with clean layout and mobile-first UI.

Saeku Web Platform - React, REST APIs

- GitHub: github.com/farscorp/saeku-web-frontend
- Built reusable UI components and integrated data from backend services.
- Debugged and refactored backend code identified during system analysis to improve overall platform stability and data accuracy.

EXPERTISE

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frameworks: React.js
- Styling: Chakra UI, Flexbox, Grid, Responsive Design
- Tools: Git, GitHub, Vercel, Netlify, Jira, Slack
- Other: REST APIs, JSON, Cross-Browser Compatibility

SOFT SKILLS

- Detail-oriented with a strong eye for UI/UX
- Effective problem-solving and debugging
- Self-driven and deadline-focused

EDUCATION & CERTIFICATIONS

Certified Front-End Developer - W3Schools (2024)

- Certifications completed in HTML, CSS, and JavaScript.

Front-End Development (Self-Taught & Online Courses)

- JavaScript fundamentals and morden ES6+ concepts
- React fundamentals (components, hooks) and component-based architecture
- Continuous hands-on learning through real-world projects
